Summary

Computer Science graduate with professional experience providing enterprise IT support and developing full-stack web applications. Skilled in troubleshooting hardware, software, and network issues while building modern software solutions using JavaScript, React, and Node.js. CompTIA A+ certified with a strong foundation in systems administration, networking, and software engineering.

Professional Experience

RWJBarnabas Health — Field Services Analyst

June 2026 – Present

- Provide technical support for enterprise hardware, software, and network-related issues across a large healthcare environment
- Diagnose and resolve operating system, peripheral, printer, and connectivity problems while minimizing downtime
- Configure, deploy, and maintain Windows workstations, laptops, peripherals, and mobile devices
- Collaborate with enterprise IT teams to document incidents and deliver reliable technology support

Best Buy — Sales Associate

Sept 2023 – Oct 2024

- Assisted customers in selecting and troubleshooting consumer technology products
- Explained technical concepts clearly while delivering exceptional customer service

Projects

JAMA Network Monitoring Dashboard

April 2026

React, Node.js, Express, Networking

- Engineered a full-stack monitoring tool to track website uptime and latency using REST APIs
- Built backend services to collect and return structured telemetry and performance metrics
- Deployed the application using GitHub Pages and Render

Personal Portfolio Website

May 2023 – Present

React, JavaScript, HTML/CSS

- Built and maintain a personal portfolio showcasing projects, certifications, and technical experience
- Designed a responsive user interface using React and modern front-end development practices

Linux Home Lab

February 2026

Linux, Virtual Machines, Networking

- Created virtual Linux environments to practice networking and system administration
- Configured IP addressing and verified connectivity between virtual machines
- Used networking tools to troubleshoot operating system and connectivity issues

Skills

Languages: JavaScript, SQL, HTML/CSS

Frameworks: React, Node.js, Express

Operating Systems: Windows, Linux

Networking: TCP/IP, DNS, DHCP

Tools: Git, GitHub, VS Code, Virtual Machines, Web Deployment, AI Tools

Education

Rutgers University, New Brunswick, NJ

Dec 2025

Bachelor of Science in Computer Science

- Relevant Coursework: Computer Networks, Computer Architecture, Data Structures and Algorithms

Certifications

- CompTIA A+ Certified (2026)
- CompTIA Network+ (Expected June 2026)
- Microsoft Intro to Computer Operating Systems and Security (2024)
